## **DETAILED ACTION**

### ***Continued Examination Under 37 CFR 1.114***

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 2/16/06 has been entered.

### ***Allowable Subject Matter***

2. Claims 1-6, 8, 10-17, 27, and 29 are allowed.

3. The following is an examiner's statement of reasons for allowance: the record of prior art does not show the motor comprising a capacitor disposed inside the rotating member having a commutator and an armature and projecting on a side of the commutator nearest the armature in a position corresponding the recessed portion formed between adjacent coils in the armature and between the coils and the commutator. The records of prior art either show the capacitor being inside the armature as shown in Ishikawa et al (3,322,988) or inside the commutator as shown in Schill (DE 443 38 345 A1).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
